

AUGUST 7, 2018

Metrc is pleased to provide an update and information on the newest features available in Metrc[®] coming Wednesday, August 8, 2018.

In order to comply with the new Manager-Sampler requirements, a new identifier will be available within an Employee's profile. If your facility will be assigning Managers to sample for quality control or product development, an Admin with permissions for Employees will need to edit the assigned Manager's profile and select Manager-Approved Sampler.
