

Metric Support Bulletin

Bulletin Number: MI_IB_0035	Distribution Date: 4/21/21	Effective Date: 4/21/2021
Contact Point: Metric® Support	Subject: Infused Beverage Testing	
Reason: Metric is providing an update on the newest testing option for infused beverages.		

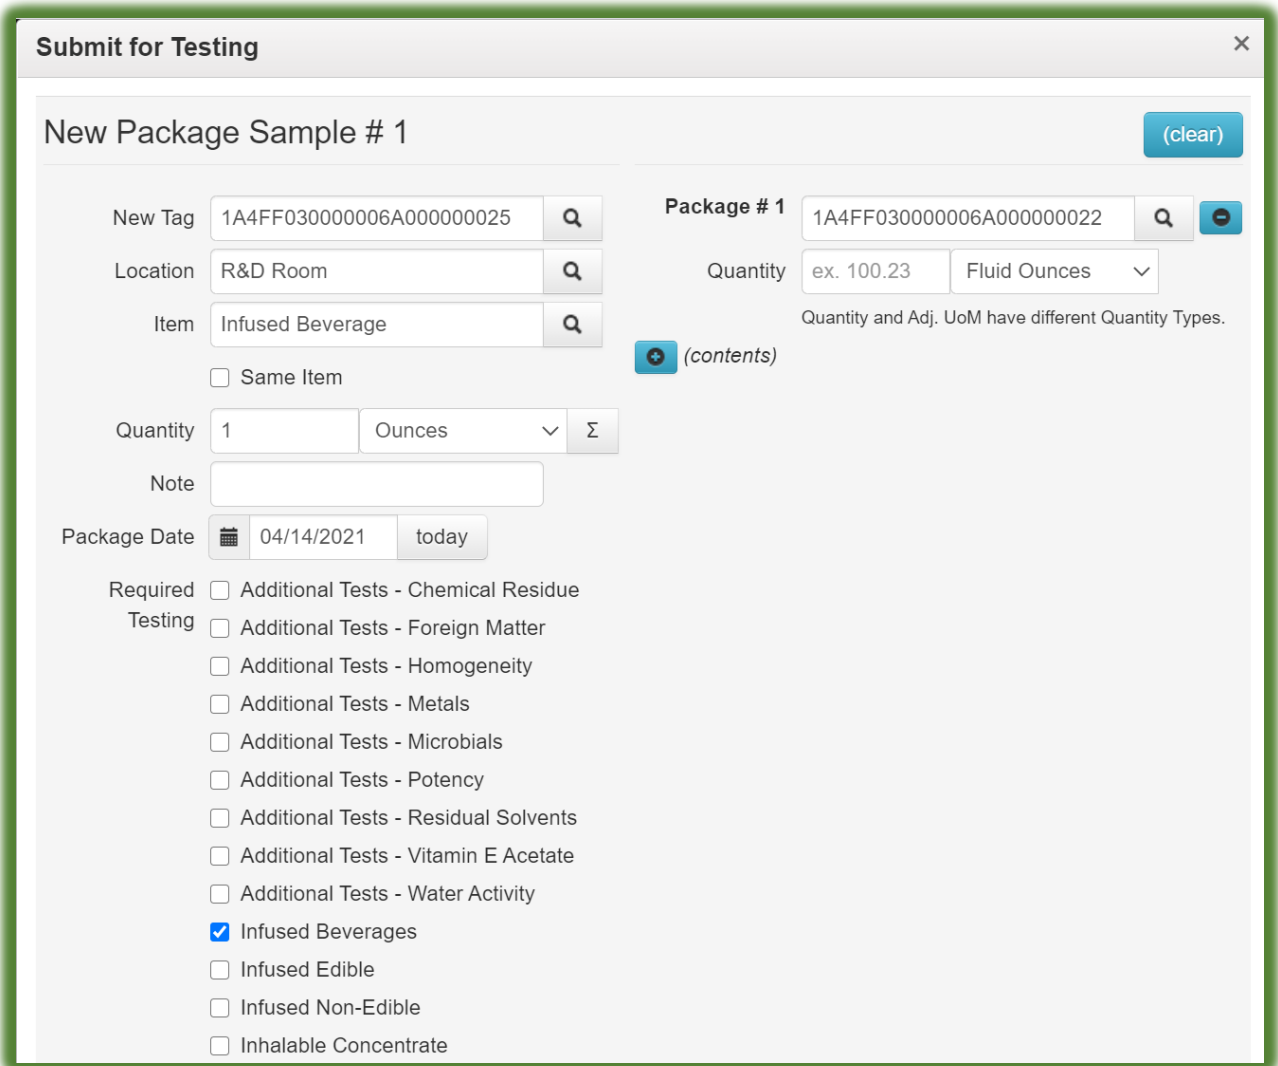

Greetings Metric Users,

This bulletin provides information on the latest testing option for the new products, infused beverages.

Please note, this product may only be created and tested with permission from the MRA.

Selecting New Testing Option: Infused Beverages

After creating the batch of infused beverage, with permission from the MRA, the production facility will submit a sample package for testing, selecting the new Test Batch, “Infused Beverages”, along with all other applicable required tests.

The screenshot shows a web application window titled "Submit for Testing". The main heading is "New Package Sample # 1" with a "(clear)" button. The form contains several input fields and a list of testing options:
