- II. The new Production Management report available for cultivators
- III. Source Package field for the Package Inventory report
- IV. Ability for shippers to edit packages and destinations on a manifest that has been picked up by a transporter
- V. Optional County field can be recorded on Sales Deliveries
- VI. Fixed CSV Exports in Canned Reports
- VII. Fixed Package History on Sales Delivery Drilldown
- VIII. Updated CSV Formatting Guidelines
- IX. Updated Metrc General Manual
- X. Updated State Supplemental Manual

Please find on the following pages a detailed description of the enhancements:

Manage Drivers and Vehicles

Users now have the ability to manage the saved drivers and vehicle information under their admin area. These saved drivers and vehicles can be used to populate those fields when creating transfer manifests.

To navigate to this screen, select the Transporter option under the Admin area. This step is show below in **Figure 1**.

Figure 1: Admin Menu with Transporter Option

Please Note: If this option is not visible, you will need to be granted the permission under the employee admin menu.

Once on the Transporter screen, navigate to either the driver or vehicle tab and use the button to create the entry. This step is demonstrated below in **Figure 2**.

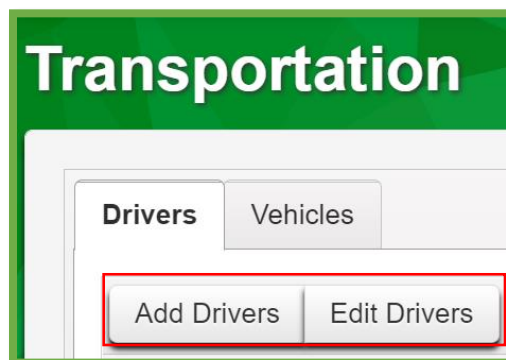

Figure 2: Add Driver Button

This button will trigger an action window to enter the driver's information. This step is demonstrated for drivers below in **Figure 3**.

Figure 3: Add Driver Action Window

Once the information is entered, save the driver to be used when creating transport manifests.

To save vehicle information this process is repeated under the Vehicle tab. This process is demonstrated below in **Figure 4** and **Figure 5**.

Production Management Report

Users at Cultivation licenses will now be able to run an advanced report that will provide the following data points over a given data range (no longer than six months):

- Max Plants – *Maximum Number of Plants During Time Period*
- Average Plants – *Average Number of Plants in Veg/Flowering During Time Period*
- Percentage of Max Plants – *Average Number of Plants During Time Period Divided by Max Plants*
- Harvested Weight Packaged – *Total Weight Packaged from Harvest During Time Period*
- Harvested Weight Transferred – *Total Weight Transferred during Time Period*
- Percentage of Harvested Weight Transferred – *Total Weight Transferred Divided by Total Weight Packaged from Transfer During Time Period*

Please Note: This is intended to be an additional report to utilize and not one that is required to use at this time.

To navigate to the Production Management Report screen, select the option under the Reports area. This step is demonstrated below in **Figure 6**.

Figure 6: Navigate to the Production Management Report

Once on the Production Management Report screen, select the Pending tab and use the “Request Report” button to initiate the process. This step is demonstrated below in **Figure 7**.

Figure 7: Pending Report Tab and Request Report Button

This button will initiate an action window to select the date range of the report. This step is demonstrated in **Figure 8** below.

Note: The date range must be less than 180 days or the report will not run.

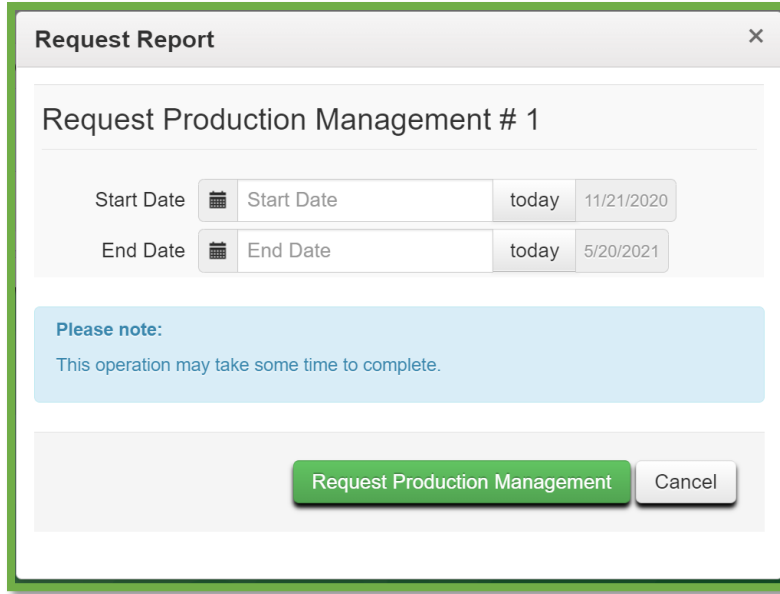

Figure 8: Request Production Report Action Window

The request will remain under the Pending tab until it is moved to the In Progress Tab. Once completed, all the information will be made available under the Complete tab. This step is demonstrated in **Figure 9** below.

Edit Transfer Manifests After Transporter Acceptance

Users will now be able to edit the packages and destinations of transfers after they have been accepted by Transporter licenses for correction purposes.

To do this, navigate to the outgoing transfers screen and drill down on the transfer requiring edits. Once the drill down arrow is utilized, select the Destination tab and use the “Edit” button. This step is demonstrated in **Figure 12** below.

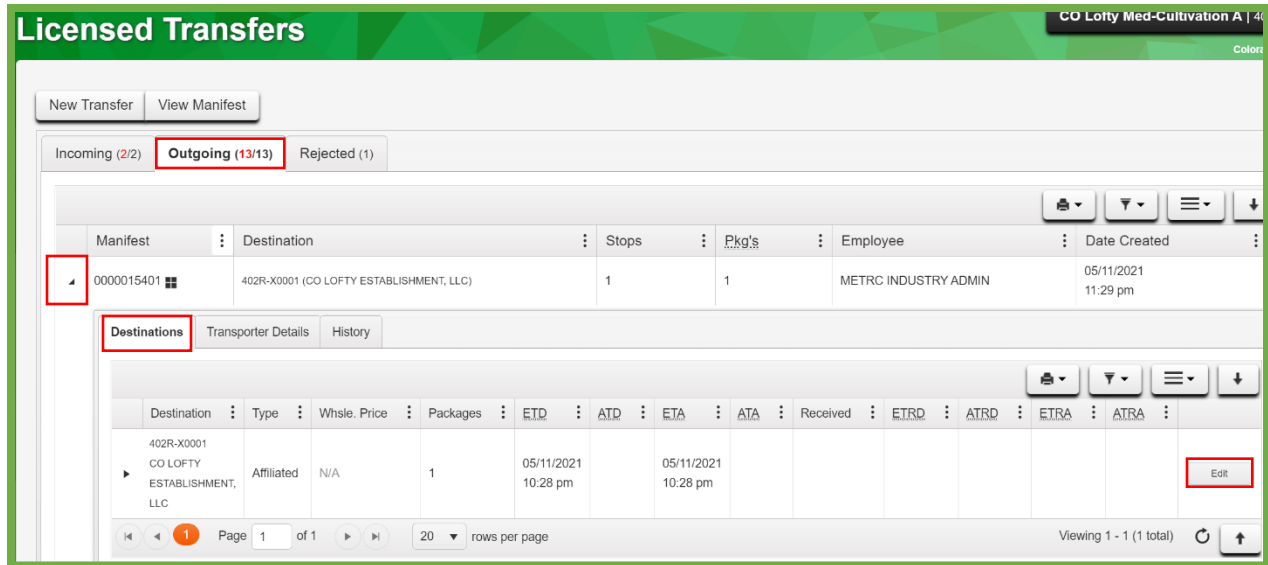

Figure 12: Edit Outgoing Transfer

The edit button will trigger an action window, to be able to edit the destination and package information for the transfer. Once the edits are complete, use the save transfer button to complete the process. This step is demonstrated below in **Figure 13**.
