Greetings Metrc Users,

Metrc is pleased to provide information on our newest enhancements within the software. These enhancements, fixes, or document updates include:

- I. Ability to manage saved drivers and vehicles under the Admin Menu
- II. The new Production Management report available for growers
- III. Source Package field for the Package Inventory report
- IV. Optional County field can be recorded on Sales Deliveries
- V. Fixed CSV Exports in Canned Reports
- VI. Fixed Package History on Sales Delivery Drilldown
- VII. Updated CSV Formatting Guidelines
- VIII. Updated Metrc General Manual

Please find on the following pages a detailed description of the enhancements:

# Manage Drivers and Vehicles

There is now the ability to manage the saved drivers and vehicle information under their admin menu. These saved drivers and vehicles can be used to populate those fields when creating transfer manifests.

To navigate to this screen, select the Transporter option under the Admin menu. This step is show below in **Figure 1**.

## **Production Management Report**

Grower licenses will now be able to run an advanced report that will provide the following data points over a given data range (no longer than six months):

- Max Plants Maximum Number of Plants During Time Period
- Average Plants Average Number of Plants in Veg/Flowering During Time Period
- Percentage of Max Plants Average Number of Plants During Time Period Divided by Max Plants
- Harvested Weight Packaged Total Weight Packaged from Harvest During Time Period
- Harvested Weight Transferred Total Weight Transferred during Time Period
- Percentage of Harvested Weight Transferred Total Weight Transferred Divided by Total Weight Packaged from Transfer During Time Period

**Please Note:** This is intended to be an additional report to utilize and not one that is required to use at this time.

To navigate to the Production Management Report screen, select the option under the Reports menu. This step is shown below in **Figure 6**.

### **CSV Guidelines Update**

The CSV Formatting Guide has been updated and can be found within the Support Dropdown. Updates to this guide include changes going into effect for the Sales Import requirements.

A new column referenced as "Identification Method" will now need to be included in both the Sales (new) and (update) files. An Identification Method is a free form field to indicate how to identify the individual making a purchase. At this time, unless the Identification Method is already required for sales receipts, it will not be enabled within this release and additional information would be provided in a future bulletin.

The order of the columns for the CSV Sales (new) import are as follows:

- 1. Sale Date/Time
- 2. Customer Type
- 3. Patient License Number
- 4. Caregiver License Number
- 5. Identification Method
- 6. Package Label
- 7. Quantity
- 8. Unit of Measure
- 9. Total Amount
