

<b>Bulletin Number:</b> ME_IB_0011	<b>Distribution Date:</b> 5/14/21	<b>Effective Date:</b> 6/1/21
<b>Contact Point:</b> Metrc® Support	<b>Subject:</b> New Metals Test Batches	
<b>Reason:</b> Metrc and the OMP are providing an update on the addition of 4 new lab test batches and the changes in testing requirements for marijuana and marijuana product packages occurring June 1 <sup>st</sup> , 2021		

Greetings Metrc Users,

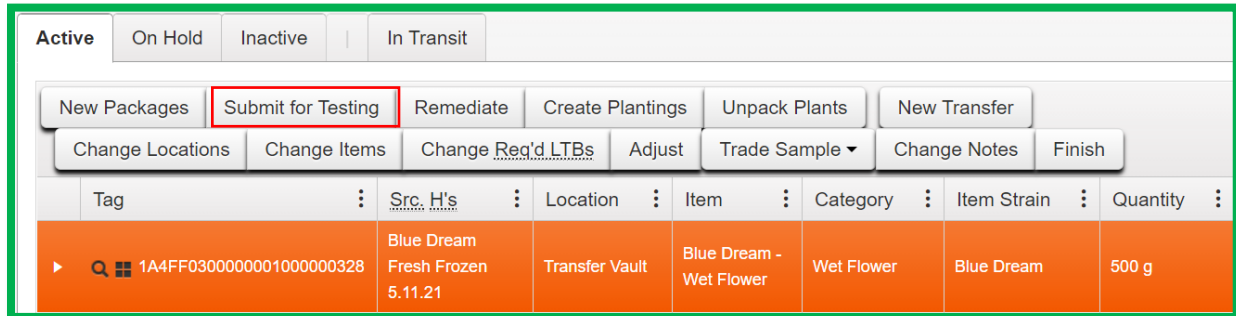

This bulletin provides notice that the OMP has made changes within Metrc to add 4 new lab testing batches that will now be visible when creating test samples and selecting the required lab test batches. Currently these lab test batches are not required.

On **June 1<sup>st</sup>, 2021** in accordance with changes to the OMP's testing requirements, marijuana and marijuana products to be transferred to another licensee **will require testing** for metals using the new lab test batches before transferring to another licensee.

Please see the following pages for more details:

## **Metals – Flower/Trim Lab Test Batch**

When creating a test sample in Metrc, select the package that is being sampled, and click the Submit for Testing button. This step is demonstrated in **Figure 1** below.

**Figure 1: Submit Package for Testing**

This button will trigger an action window to create a new test sample package. There are additional lab test batches for Metals available to be selected as a required lab test batch based on the product type. These include “Metals – Concentrate & Inhalable Concentrate”, “Metals – Flower/Trim”, “Metals – Ingestion/Suppository”, and “Metals – Topical”. These lab test batches will not be required until **June 1<sup>st</sup>, 2021**. This step is shown below in **Figure 2**.

**Please note:** After June 1<sup>st</sup>, 2021, all packages marijuana and marijuana products will not be allowed to be transferred without passing the OMP required testing per their updated testing guidelines.
