Reason: New Features		

Franwell is pleased to provide some updates and information on the newest features available in Metrc®.

Those additional options include Login history, Package detail icons, Transfers counter, and Destination licensee. Please find following a full description of each new item detail:

Login History

The user drop-down menu has been updated to include Login history. This option allows users to view the history of their logins.

A screenshot of the 'Login History' table. The table has a green header and a white body. It contains a list of login attempts with the following columns: Date/Time, Success, IP Address, and Reason. The table is paginated, showing 1 of 5 pages and 20 rows per page. The first row shows a successful login at 09:05:20 on 06/09/18. The 11th row shows a failed login attempt with the reason 'Invalid username and/or password'.

Package detail Icons

Instead of drilling down to see package details you will see icons which give, at a glance, a hint of the history of the package. The user can hover over each icon to determine what it means.

- From left to right:
- Contains at least one Plant Package
 - Contains at least one Product Package (e.g. buds, trim, brownies, etc.)
 - Contains at least one Lab Sample Package
 - Contains at least one Package flagged with "Product Requires Remediation"
 - Contains at least one Package that has Remediated Product

Transfers Counter

The Package section (Active, On Hold, and Inactive) has been updated to include a counter which tracks transfers associated with each package tag. If there is a “house” icon, it will be followed by the number of transfers associated with that package tag. If there is no “house” icon, then the package has never been transferred.

Destination Licensee

A new column labeled “Destination” has been added to the Transfer section to show the destination licensee. If a transfer has one destination, the licensee’s name and license number will be displayed. If the transfer has more than one destination, the text “multi-destination” will be displayed instead.
