

# Montana - Metrc Support Bulletin

<b>Bulletin Number:</b> MTIB#006	<b>Distribution Date:</b> 01/16/19	<b>Effective Date:</b> 1/14/19
<b>Contact Point:</b> support@metrc.com	<b>Subject(s):</b> New Features – Waste Types	

Greetings Metrc Users,

Metrc® is pleased to provide some information on the newest feature available in the software to support legislative allowances to sell fibrous harvest waste.

## NEW WASTE REPORTING OPTIONS

When reporting waste in Harvests, you will now have a dropdown list to choose the waste type being reported. The state will configure the waste types from which you will choose.

The screenshot shows the 'Report Waste' window with the following elements:

- Template Section:** Includes 'Unit of Measure' (dropdown), 'Waste Type' (dropdown), and 'Waste Date' (calendar icon, 'mm/dd/yyyy', 'today' button).
- Batch # 1 Section:** Includes 'Batch' (searchable text input), 'Weight' (input with 'ex. 100.23' and a unit dropdown), and 'Waste Type' (dropdown).
- Batch # 2 Section:** Similar to Batch # 1, but the 'Waste Type' dropdown is open, showing a list with '- Select -', 'Fibrous Waste', and 'Plant Material'. A red dashed box highlights this dropdown menu.
- Buttons:** A '+' button to add a new batch and 'Report Waste' and 'Cancel' buttons at the bottom.

# Montana - Metrc Support Bulletin

You will now have the option below in Waste Types:

- Plant Material– Normal harvest waste

Please note: The state may add new Waste Type options at any time.

## **NEW ADDRESS FOR METRC**

Metrc has a new address. Any checks or money orders for tag orders or industry support fees should be mailed to:

METRC LLC  
4151 South Pipkin Road  
Lakeland, FL 33811
