

Bulletin Number: NVIB#005_010518	Distribution Date: 03/31/18	Effective Date: 03/31/18
Contact Point: support@metrc.com	Subject: Returns & Exchanges	
Reason: Returns & Exchanges,		

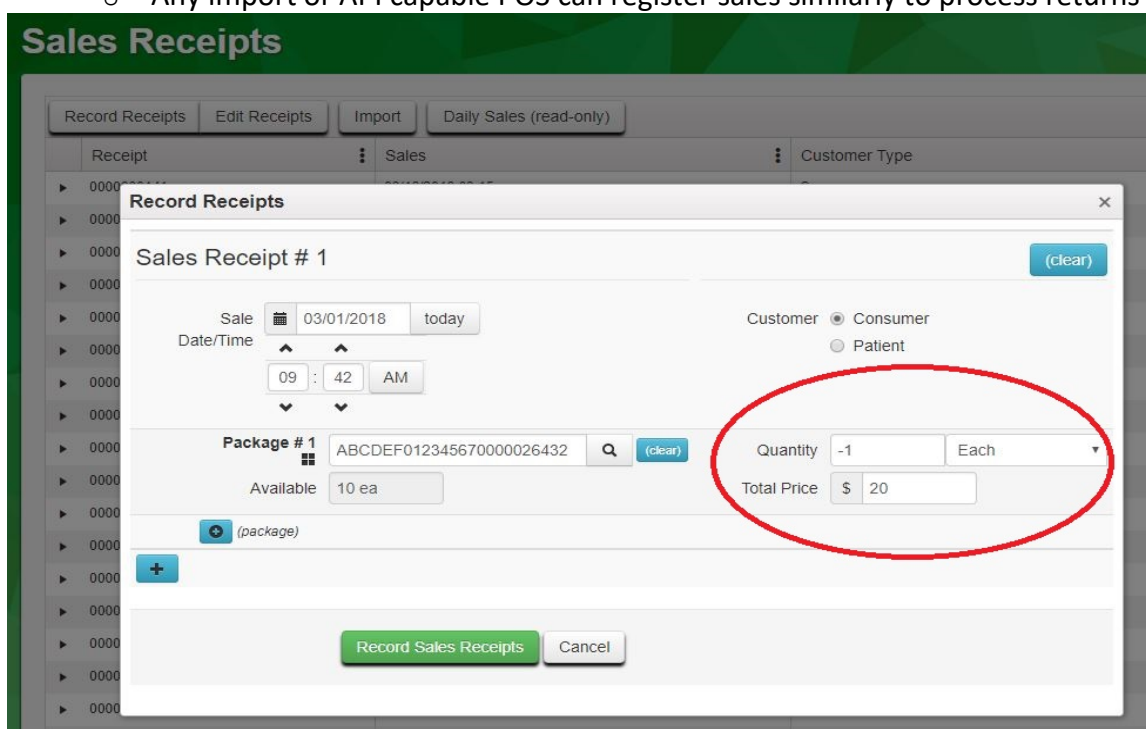

Greeting Metric Users,

The purpose of this bulletin is to address questions regarding Returns & Exchanges, the Waste Log and Pre-rolls vs. Infused Pre-rolls.

Returns & Exchanges

Any defective, spoiled or damaged product that is returned or exchanged must be reported in Metric. Returned product must be returned to its original source for destruction.

- This will show that inventory was returned and that any refund is recorded
- If you are exchanging the product, then you will have two transactions
 - The first transaction to record the return of an item and a monetary refund
 - The second transaction to record the dispensing of an item from the new package
- Simply enter a receipt with a minus (-) symbol in front of the quantity as shown below to register a negative sale (a refund)
 - Any import or API capable POS can register sales similarly to process returns

Sales Receipts

Record Receipts | Edit Receipts | Import | Daily Sales (read-only)

Receipt | Sales | Customer Type

Record Receipts

Sales Receipt # 1 (clear)

Sale Date/Time: 03/01/2018 today
09 : 42 AM

Customer: ☒ Consumer ☐ Patient

Package # 1: ABCDEF012345670000026432 (clear)

Available: 10 ea

(package)

Quantity: -1 Each

Total Price: \$ 20

Record Sales Receipts | Cancel

- The returned product must then be re-packaged to be sent back to the Processor it came from
 - Create a new package for the returned product from the original package it was sold from
 - Transfer the package of returned product back to the Processor
 - **You cannot transfer the original package that the returned item was sold from!**
- The Processor will receive the product into their facility and destroy it accordingly
 - This process ensures that the return is tracked back to its source for full visibility of potential dangerous or defective products
 - This also helps prevent potential product diversion

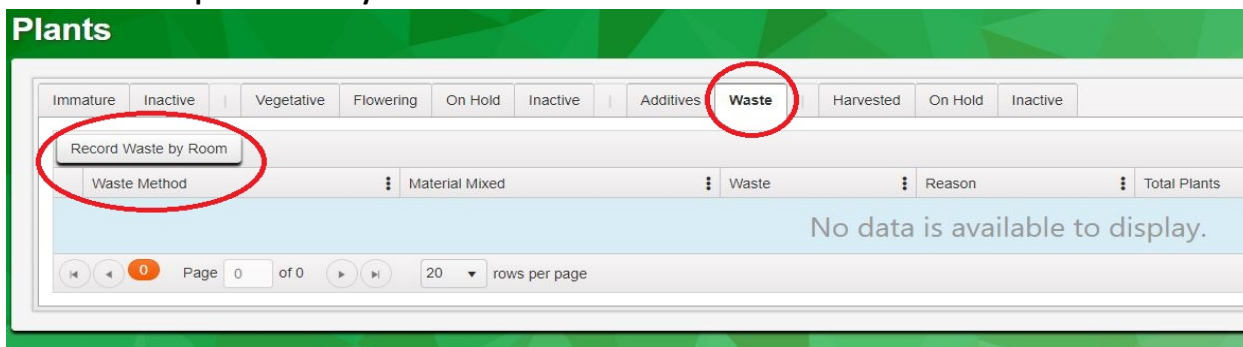

Waste Log

Requirement
Effective April 30th

The Waste Log will allow you track generic plant waste in Metrc.

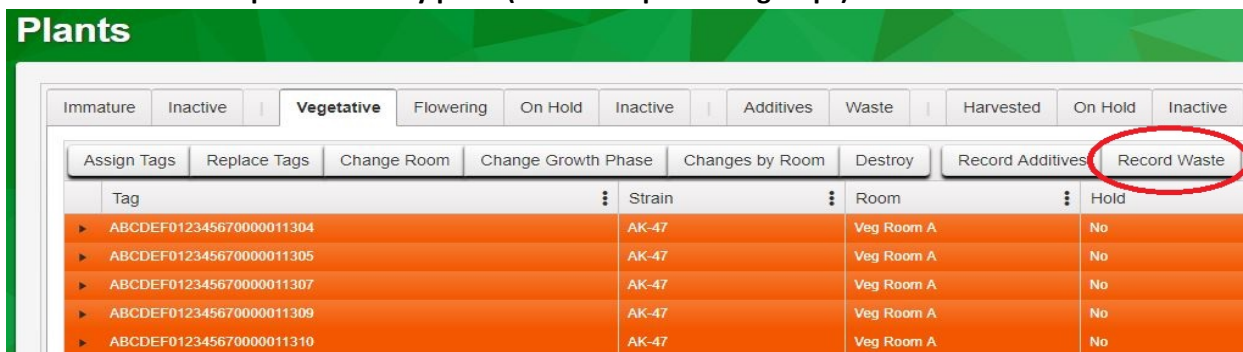

- All plant waste created prior to harvesting should be recorded in the Waste Log
- All plant waste created during or after the harvest should be record to the specific Harvest Batch it was trimmed from

You can record plant waste by Room

The screenshot shows the 'Plants' interface with the 'Waste' tab selected. A button labeled 'Record Waste by Room' is circled in red. Below the button, there are fields for 'Waste Method', 'Material Mixed', 'Waste', 'Reason', and 'Total Plants'. A message states 'No data is available to display.' The bottom of the interface shows pagination controls: 'Page 0 of 0' and '20 rows per page'.

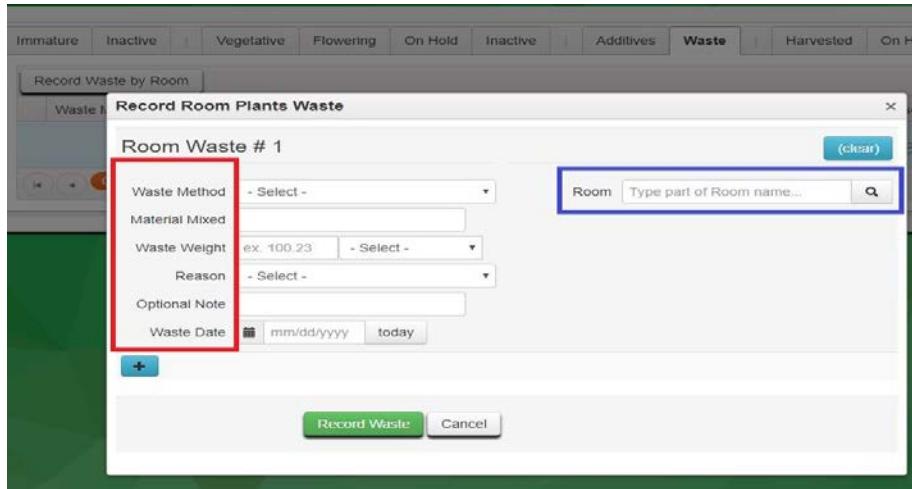

You can also record plant waste by plant (Individual plants or groups)

The screenshot shows the 'Plants' interface with the 'Vegetative' tab selected. A button labeled 'Record Waste' is circled in red. Below the button, there is a table with columns: Tag, Strain, Room, and Hold. The table contains five rows of data.

Tag	Strain	Room	Hold
▶ ABCDEF012345670000011304	AK-47	Veg Room A	No
▶ ABCDEF012345670000011305	AK-47	Veg Room A	No
▶ ABCDEF012345670000011307	AK-47	Veg Room A	No
▶ ABCDEF012345670000011309	AK-47	Veg Room A	No
▶ ABCDEF012345670000011310	AK-47	Veg Room A	No

Record the waste weight, method, reason date & time (include any necessary notes)

A screenshot of the 'Record Room Plants Waste' dialog box in the Metrc software. The dialog box is titled 'Record Room Plants Waste' and has a close button (X) in the top right corner. It contains several input fields: 'Room Waste # 1' with a '(clear)' button; 'Waste Method' with a dropdown menu showing '- Select -'; 'Material Mixed' with a text input field; 'Waste Weight' with a text input field showing 'ex. 100.23' and a dropdown menu showing '- Select -'; 'Reason' with a dropdown menu showing '- Select -'; 'Optional Note' with a text input field; and 'Waste Date' with a calendar icon, a text input field showing 'mm/dd/yyyy', and a 'today' button. A red rectangle highlights the 'Waste Method', 'Material Mixed', 'Waste Weight', 'Reason', and 'Optional Note' fields. A blue rectangle highlights the 'Room' dropdown menu and the 'Type part of Room name...' text input field. At the bottom of the dialog box are two buttons: 'Record Waste' (green) and 'Cancel' (grey).

There are different waste methods established by the State that will be available. These are listed below:

- **Waste Methods**
 - Grinding with compostable Material
 - Grinding with non-compostable material
 - Other method approved
- **Waste Reasons**
 - Pruning

Pre-roll vs. Infused Pre-roll

Requirement
Effective April 30th

This will be a change to the Item Categories in Metrc Nevada that will affect all packaging and sales of Pre-rolls.

“Marijuana Pre-Rolled Cigs/Joints” will be replaced by a **“Pre-roll”** item category and a new, separate category will be created for **“Infused Pre-rolls”**

- **Pre-roll**
 - A Pre-roll consists of raw usable Cannabis that has been ground up and rolled into normal wrapping paper
 - Pre-rolls must be packaged by weight
 - Pre-rolls must be categorized as “Pre-roll”
 - Pre-rolls must be lot specific
 - *Pre-rolls may be created by Cultivators & Dispensaries*
- **Infused Pre-roll**
 - An Infused Pre-roll consists of raw usable Cannabis that has been mixed with kief, oil or other concentrated product.
 - Infused Pre-rolls must be packaged by count
 - Infused Pre-rolls must be categorized as “Infused Pre-roll”
 - Infused Pre-rolls are not required to be lot specific
 - *Infused Pre-rolls may NOT be created by Cultivators or Dispensaries, only Processors*

Metrc Training & Support

Metrc is happy to provide training, training materials and support to licensees in the industry at no additional cost.

- There is no charge to attend training classes or for support
- Support is available via email or phone
- Youtube training videos are available online 24/7

Metrc provides a Level 1 New Business Class and a Level 2 Advanced Class for each facility type to cover the functionality of Metrc. You must attend a new business class before you can sign up for an advanced class.

Metrc New Business (Level 1) – All Facilities

Metrc Advanced (Level 2) - Cultivator

Metrc Advanced (Level 2) - Processor

Metrc Advanced (Level 2) – Store/Dispensary

Metrc Advanced (Level 2) – Testing Labs

You may register for training at the link below:
