

Metrc Support Bulletin

Bulletin Number: SD_IB_001	Distribution Date: 10/5/22	Effective Date: 10/14/22
Contact Point: Metrc® Support	Subject: Metrc External Transfers One-Time Extension	
Reason: To help process requests from South Dakota users into Metrc.		

Greetings Metrc Users,

The South Dakota Medical Cannabis Program is extending the deadline for the conclusion of beginning inventory to **October 14, 2022, 5:00 pm central time**. This is a modification to the previous deadline of October 3, 2022, described in the original announcement. The South Dakota Medical Cannabis Program are considering beginning inventory as any cannabis you have in your possession now that you did not acquire from an in-state vendor with a pre-existing Metrc tag from South Dakota.

The South Dakota Medical Cannabis Program has stated that there will be no further extension granted after October 14, 2022. Prefacing if your establishment will not be operational prior to this deadline, any cannabis you purchase for your establishment must exist in Metrc in South Dakota's medical cannabis program prior to your purchase of that cannabis.

Providing an email if needed, MCQuestions@state.sd.us.
