

<b>Bulletin Number:</b> CA_IB_2022_006	<b>Distribution Date:</b> 12/16/22	<b>Effective Date:</b> 12/16/22
<b>Contact Point:</b> Metrc® Support	<b>Subject:</b> New Update in Metrc	
<b>Reason:</b> Provide an update on our upcoming feature release.		

Greetings Metrc® Users,

Metrc is pleased to provide information that on insert date here our newest updates will be available within the software. These enhancements, fixes, and document updates include:

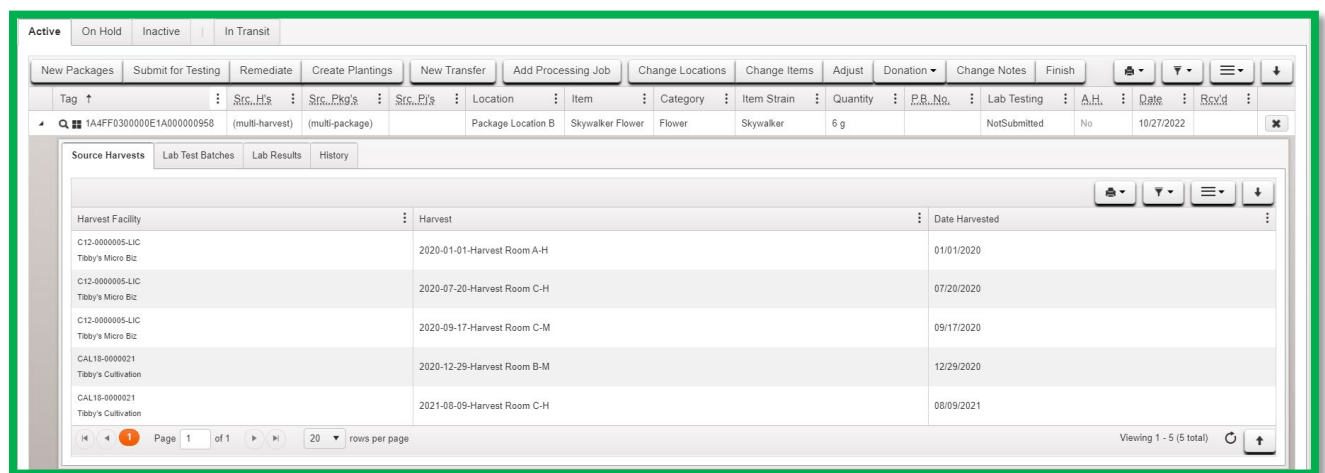

- I. New package detail tab for source harvest batch information
- II. New package detail tab for lab test batch information
- III. Updates to the California Supplemental Guide

Please find on the following pages a detailed description of these enhancements.

### **Source Harvests Tab**

Metrc has added a new tab within the packages drilldown for users to view information on a source harvest(s) that contributed to the creation of the package. This information includes the license that created the harvest, harvest name, and date of the harvest. This will also allow you to view all the harvest information for packages created from multiple harvests.

To view this information, you will drill down into the package details and select the *Source Harvests* tab. This is shown in **Figure 1** below.

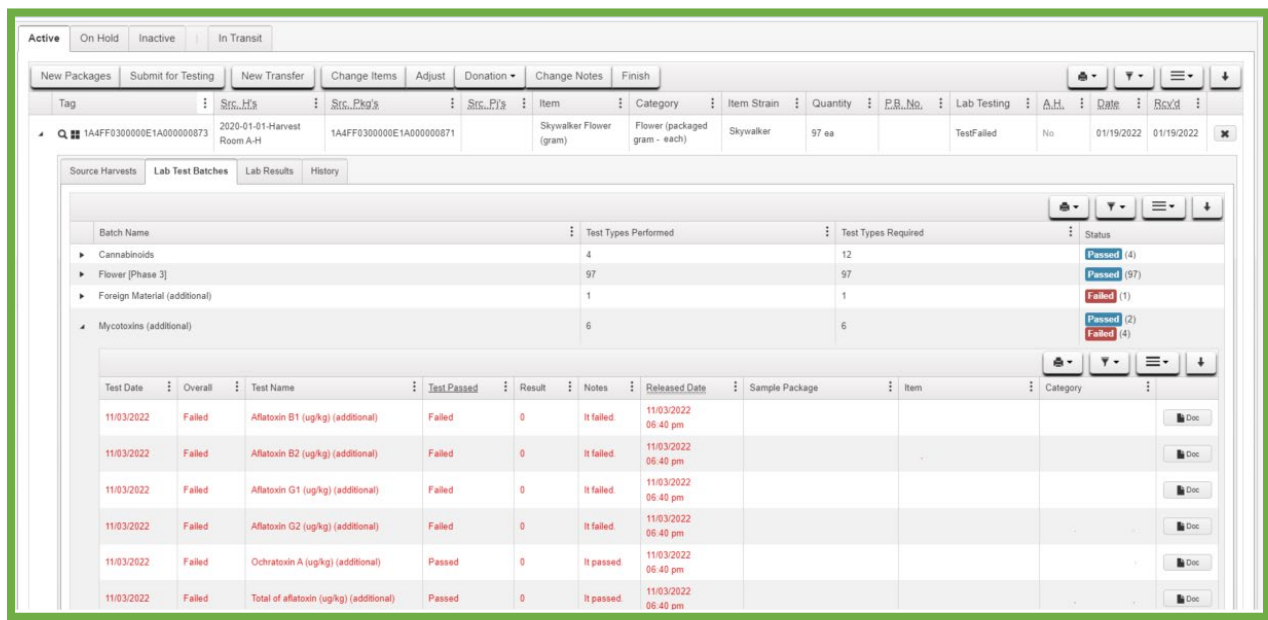

**Figure 1: Source Harvest Tab**

## Lab Test Batches Tab

Metrc has added a new tab within the packages drilldown to provide users more concise information on the lab test batches for which the package was tested. To view this new tab, you can drill down into the package details using the caret on the far-left side of the package entry, and select the *Lab Test Batches* tab. The information provided will be the lab test batch name, the number of test types performed and required, and the pass/fail status of the results.

If you would like to view the individual tests performed under the test batch, you can drill down into each one to see the results. **Figure 2** below is an example of how this information is displayed.

Batch Name	Test Types Performed	Test Types Required	Status
Cannabinoids	4	12	Passed (4)
Flower (Phase 3)	97	97	Passed (97)
Foreign Material (additional)	1	1	Failed (1)
Mycotoxins (additional)	6	6	Passed (2) Failed (4)

  

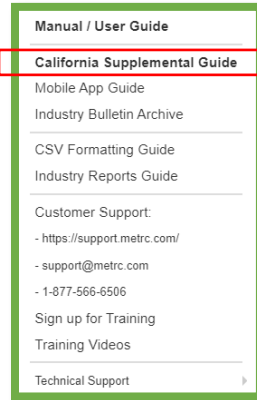

Test Date	Overall	Test Name	Test Passed	Result	Notes	Released Date	Sample Package	Item	Category
11/03/2022	Failed	Aflatoxin B1 (ug/kg) (additional)	Failed	0	It failed.	11/03/2022 06:40 pm			
11/03/2022	Failed	Aflatoxin B2 (ug/kg) (additional)	Failed	0	It failed.	11/03/2022 06:40 pm			
11/03/2022	Failed	Aflatoxin G1 (ug/kg) (additional)	Failed	0	It failed.	11/03/2022 06:40 pm			
11/03/2022	Failed	Aflatoxin G2 (ug/kg) (additional)	Failed	0	It failed.	11/03/2022 06:40 pm			
11/03/2022	Failed	Ochratoxin A (ug/kg) (additional)	Passed	0	It passed.	11/03/2022 06:40 pm			
11/03/2022	Failed	Total of aflatoxin (ug/kg) (additional)	Passed	0	It passed.	11/03/2022 06:40 pm

## California Supplemental Guide

An updated version of the *California Supplemental Guide* is available on the *Support* menu accessed from the top navigation bar, as shown in **Figure 3** below.

**Figure 3: California Supplemental Guide**

The updates to the *California Supplemental Guide* include the following:

- Added the new *Save Grid Configuration Remotely* feature to the *User Profile* page
- Added the new *Employment* options to the *Add/Edit Employees* modals
- Added a description of the employee permissions to the *Add/Edit Employees* modals
- Updated the *Waste Reasons* to match current state values
- Updated the *Adjustment Reasons* to match current state values
- Updated the *Rejection Reasons* to match current state values

Please feel free to contact support at [support@metrc.com](mailto:support@metrc.com) or 877-566-6506 with any questions.
