

Bulletin Number: NV_IB_63	Distribution Date: 1/23/2023	Effective Date: 1/24/2023
Contact Point: Metrc® Support	Subject: New Features in Metrc	
Reason: Provide information on the latest feature release.		

Greetings Metrc® users,

Metrc is pleased to provide information on the latest updates to the software that will be available on 1/24/2023. These enhancements include:

- I. Updates related to transfer rejections
- II. New directional field for transfers with layovers
- III. New optional field entries when recording sales

In addition to the above features, Metrc will now send automated email notifications to owners and managers of facilities when plants, harvests, and packages are newly placed on administrative hold. This notice will include the license and the tag numbers for anything placed on hold since the last email notification.

A detailed description of these enhancements is provided on the following pages.

Transfer Rejection Enhancements

A new *Inactive* tab has been added to the *Licensed Transfers* grid as shown in **Figure 1** below. Rejected transfers move from the *Rejected* tab to the *Inactive* tab after the origin license processes and accepts in the rejection. This returns the rejected package(s) to the origin license's inventory.

In addition, the license number and license name of the rejecting business have been added to both the *Rejected* and *Inactive* tabs as shown in **Figure 1**.

Figure 1: Licensed Transfers - Inactive Tab

New Layover Leg Field

A new *Layover Leg* field has been added to the *New/Edit Licensed Transfer* action window and the transfer manifest. It is enabled only when the *Layover* checkbox is marked as shown in **Figure 2** below.

The screenshot shows the 'New Licensed Transfer' form. The 'Layover' checkbox is checked and highlighted with a red box. The 'Layover Leg' dropdown menu is also highlighted with a red box and currently shows 'From And To Layover'. Other fields include Destination 1 (C9-0000005-LIC), Type (Transfer), Est. Departure (12/22/2022 01:00 PM), Est. Arrival (12/23/2022 05:00 PM), Transport # 1 (C12-0000005-LIC), Phone No. (555-129-4874), Est. Check-In (12/22/2022 06:00 PM), Est. Check-Out (12/23/2022 07:00 PM), Driver 1 (Frank Farkle), Driver's Name (Frank Farkle), Employee ID (Frank.Farkle@MicroBiz.com), Driver's Lic. No. (FF234567890), Vehicle 1 (TibbyMicro2), Vehicle Make (Ford), Vehicle Model (F150), License Plate (TibbyMicro2), and Package # 1 (1A4FF030000E1A000000946). Buttons for 'Register Transfer' and 'Cancel' are at the bottom.

Figure 2: Layover Leg Field

There are three options that can be selected for the *Layover Leg* field:

- *From And to Layover*
- *From Layover*
- *To Layover*

The *Layover Leg* field is also included on the manifest as shown in **Figure 3** below.

 METRC® CANNABIS TRANSPORTATION MANIFEST			
All sales transactions are to be completed prior to transportation of any cannabis. The receiving entity may reject product delivered, but amount delivered must be limited to amount agreed upon in prior sales transaction.

New Optional Fields for Sales

Several new optional fields will be available when recording sales receipts. To access the new fields, select the expand arrow for *Transaction Details* related to each package as shown in **Figure 4** below.

Important note:

The **Total Price** field should continue to reflect the *pre-tax* price that customers pay after the application of any discounts. These additional fields, while available, are optional. Additional information will be provided if these fields become required to use.

The screenshot shows a software interface for recording sales receipts. At the top, it says "Record Receipts" and "Sales Receipt # 1". Below this, there are fields for "Sale Date/Time" (12/13/2022, 10:07 AM) and "Customer" (Consumer, Patient, Caregiver). A "Package # 1" section shows a package ID, quantity (1), and total price (\$40.06). A red box highlights a dropdown arrow next to "Transaction Details", which is expanded to show a grid of fields: Invoice Number (1234), Price (\$30.00), Excise Tax (\$4.95), City Tax (\$3.00), County Tax (ex. 100.23), Municipal Tax (ex. 100.23), Discount Amount (\$1.50), SubTotal (\$36.45), and SalesTax (\$3.61). At the bottom, there are buttons for "Record Sales Receipts" and "Cancel".

Figure 4: Sales Receipt – Transaction Details (Optional)

The *Transaction Details* can be viewed in the *Sales Receipt* drilldown selecting the hidden columns as shown in **Figure 5** below. To unhide the columns, click on the three vertical dots on any column in the grid and select the *Columns* option from the drop down menu. Mark the checkboxes for the columns you wish to display.

Figure 5: Sales Receipt – Transaction Details Tab

The new optional fields for sales can also be entered using the CSV import feature in Metric. The on-page formatting guide for the *New and Update Sales Receipts Imports* has been updated to provide direction of how to create these CSV files. **Figure 6** below shows the updates to the *New Sales Receipts Import*.

Please note: The format for the CSV has changed and these columns are required even though you will not be using these fields at this time.

The screenshot displays a guide for CSV imports, divided into two main sections: 'CSV Columns' and 'CSV Example'.

CSV Columns: A list of 23 columns is provided. Columns 15 through 23 are highlighted with a red box, indicating they are newly required. These columns are: Invoice Number, Price, Excise Tax, City Tax, County Tax, Municipal Tax, Discount Amount, SubTotal, and SalesTax.

CSV Example: Two lines of CSV data are shown. The first line is: `10/4/2016 4:44:53 PM,Consumer,,ABCDEF012345670000010331,1,Ounces,,,,,9.99,ABC123,100.01,1.01,2.02,3.03,4.04,5.05,6.06,7.07`. The second line is: `10/4/2016 4:44:53 PM,Consumer,,ABCDEF012345670000010332,1,Ounces,,,,,9.99,XYZ456,200.02,2.02,4.04,6.06,8.08,10.10,12.12,14.14`. The second parts of both lines (the tax-related fields) are highlighted with a red box.

Below the example, it states: "A CSV header row **must not** be included." and "Files **must be** plain-text only (e.g. CSV and TXT)."
