

June 29, 2016

We would like to provide you information on some new Category options coming on Friday, July 1, 2016. These categories support guidance you have recently received from the DOR Taxation department. The additions are as follows:

- **Seeds** – Seeds will have the same functionality as Immature Plants (Clones). They will be count-based and packaged as Each.
- **Wet Whole Plants** – This category will have the same functionality as Buds. They will be weight-based and packaged with a weight UoM.

Beginning July 1st, all packages of Seeds and Wet Whole Plants will need to be packaged with these added categories.

Additionally, please see our holiday closure below to allow our team members to observe July 4th with their families.

**The Metrc Support Desk will be CLOSED on Monday, July 4th
in observance of Independence Day.**

Any questions about these updates can be directed to the Metrc Support Team by emailing support@metrc.com or calling 877-566-6506.
