

Metric Support Bulletin

Bulletin Number: MA_IB_0067	Distribution Date: 6/1/2023	Effective Date: Ongoing
Contact Point: Metric® Support	Subject: Update to Lab Test Batches	
Reason: Metric and the CCC are providing an update on the addition of the R&D Testing - Viroid Lab Test Batch.		

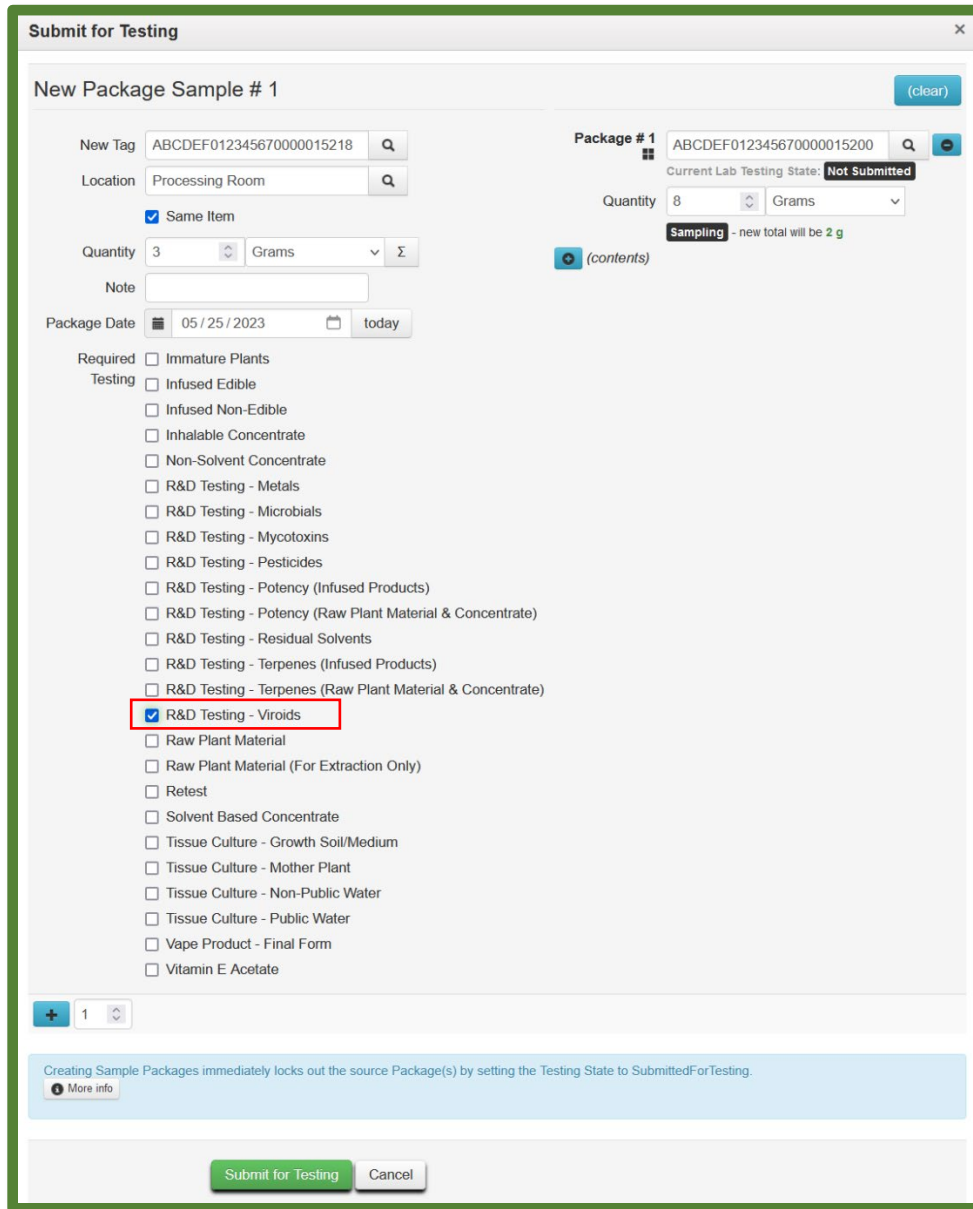

Greetings Metric Users,

Metric is pleased to provide an update and guidance on an additional lab test batch. This bulletin will include an update on the addition of the R&D Testing – Viroids Lab Test Batch.

Please see the following pages for details on these changes:

R&D Testing - Viroids Test Batch

Now when creating lab test sample packages, there will be a new “R&D Testing-Viroids” lab test batch as an option for selection as a required lab test batch for the sample package. R&D Testing - Viroids is to be used when doing R&D or voluntary viroids testing of product. This option is shown in **Figure 1** below.

The screenshot shows a web form titled "Submit for Testing" with a sub-header "New Package Sample # 1". The form contains several input fields: "New Tag" (ABCDEF012345670000015218), "Location" (Processing Room), "Quantity" (3 Grams), "Package Date" (05/25/2023), and "Package # 1" (ABCDEF012345670000015200). A "Required Testing" section lists various testing options, with "R&D Testing - Viroids" selected and highlighted by a red box. Other options include Immature Plants, Infused Edible, and various R&D Testing categories like Metals, Microbials, and Mycotoxins. At the bottom, there are "Submit for Testing" and "Cancel" buttons.
