Editing Wholesale Transfer Dollar Amount

Metrc has updated the ability to edit the Wholesale Price up to seven days after a transfer has been received by the receiving license. Previously, if the originating license initiating the transfer entered an incorrect price on the Wholesale Transfer, there was no way to correct this for reporting.

Now, the originating license that initiated the transfer can make a correction to the Wholesale Price for up to seven days after its date of creation.

In the Outgoing tab of the Transfers grid, an Edit button has been added to allow for transfer price errors to be corrected as shown in **Figure 1**.
