Contact Point: Metrc Support	Subject: New updates now available in Metrc	
Reason: New functionality and features are now available in Metrc.		

Greetings Metrc® users,

Metrc is pleased to provide information on the latest system enhancements that will be available on 07/24/2023, including:

- Edit Employee Information Across Multiple Establishments.

Please read on for more information regarding this new functionality.

Edit employee information across multiple licenses

Previously, if you had to edit an employee’s information in Metrc, and they work at multiple of your establishments, you had to individually update the information under each different license separately. Metrc has built functionality that allows Establishment admins to edit employee information for multiple licenses simultaneously. The information that can be edited includes:

- Email
- Employment/Role
- Permissions

Once you have made the necessary changes to the employee information, select the checkbox next to each license where you would like to see the changes reflected as shown in **Figure 1**. Remember to select “Save Employees” to save changes after completion.
