

<b>Bulletin Number:</b> MI_IB_0074	<b>Distribution Date:</b> 10/11/23	<b>Effective Date:</b> On-Going
<b>Contact Point:</b> Metrc® Support	<b>Subject:</b> Creating a Production Batch	
<b>Reason:</b> Providing guidance on creating Production Batches in Metrc		

Greetings,

The following is a step-by-step guide to creating Production Batches in Metrc. The document will show how a facility will correctly use the Production Batch indicator and walk through an example of correctly creating a Production Batch.

Going forward, **the Production Batch indicator should be used**

- **anytime a product changes form physically or chemically,**
- **anytime a product changes category**
- **anytime multiple categories are combined, or**
- **anytime an additive, lipid, flavoring, or terpene is added to a product**

For example, if product goes:

- from flower into a concentrate or extract (i.e. Crude),
- shake/trim into a concentrate or extract (i.e. Crude),
- from a concentrate or extract into a vape cartridge or other concentrate/extract (i.e. Distillate),
- anytime non-marijuana ingredients are added to an already-created marijuana product, or
- from a concentrate or extract into an infused edible or an infused non-edible

Then the Production Batch indicator should be used when creating that new package. Production Batches in Metrc should only be created after the actual yield is known.

Please see the following pages for more details on the process:

Metrc LLC

## **Production Batch Process**

### **Step 1: Navigate to the Packages area of Metrc**

Select the “Packages” area on the top navigational bar and once in the Packages grid, select the “Active” tab on the packages grid. This is shown in **Figure 1** below.

**Figure 1: Navigate to Active Packages**

### **Step 2: Identify packages to be used in the Production Batch**

Select one or more packages intended to be used to create a Production Batch package. The package(s) will be combined to form one new Production Batch package. After highlighting the package(s), select the “New Packages” button. This will prompt an action window to create the Production Batch. In this example, we are pulling from a package of Flower/Buds to create a concentrate Production Batch process. This step is demonstrated below in **Figure 2**.

**Figure 2: Select Source Package(s) for Production Batch**

For additional support:

Email [Support@metrc.com](mailto:Support@metrc.com) or call 877-566-6506

## Step 3: Create the Production Batch Package

After using the New Package button, an action window will open with the selected package(s) populated on the right side of the window. Note, the amount of raw product being taken from each package is on the right side of the window. This amount should be the same amount as the weight of the yield per the CRA.

Next, fill in the information about the created package (new tag, room (location), item, quantity, unit of measure, and package date). Since the product is going through a process in which it is changing form, the “Production Batch” field **must be checked** to denote this process. At this time, the “Production Batch No.” field will become available to utilize to enter the Production Batch number.

**Please Note:** the “Production Batch No.” field is to input a unique identification system for Production Batches. The last five digits of the new package tag ID # can be used in place of the Production Batch number. This field is required.

After all the information has been entered and checked for accuracy, select the “Create Package” button. This step is demonstrated in **Figure 3** below.

**New Packages**

New Package # 1 (clear)

New Tag: ABCDEF012345670000016101

Item: Distillate

☐ Same Item

Quantity: 48.6 Grams

Note:

Package Date: 10/06/2023 today

☒ Production Batch

Prod. Batch No.: 16101

☐ Remediate Product

Package # 1: ABCDEF012345670000014333

Current Lab Testing State: Not Submitted

Quantity: 48.6 Grams

Packaging - new total will be 351.4 g

Quick Entry: Quick entry packages OFF

(contents)

Create Packages Cancel

For additional support:

Email [Support@metrc.com](mailto:Support@metrc.com) or call 877-566-6506

## Step 4: Verify that the new package has been created correctly

Next, verify that the new bulk Production Batch package has been created and the weights of the source package(s) were correct using the package history. This is shown below in **Figure 4**. If an error was made in creating the Production Batch package, the new package should be discontinued, and the weight or count will be returned to the source package(s) so that the Production Batch can be remade correctly.

Q ABCDEF012345670000016101	Golden Goat 9/21/2023	ABCDEF012345670000014333		Distillate	Concentrate	48.6 g	16101	NotSubmitted	No	10/06/2023

**Figure 4: Verify Production Batch Package History**

**Please Note:** Once the Production Batch package is created, the Lab Testing status will be “NotSubmitted” and the lab results from the parent package(s) will not carry to the newly created Production Batch package. This is demonstrated in **Figure 5** and **Figure 6** below.
