<b>Reason:</b> How to complete topical sales for non-patients		

Greetings Metrc® Users,

Metrc, in conjunction with the MSDH, would like to provide guidance regarding how to complete topical sales for non-patients.

Topical sales to medical patients in Mississippi will not count against their daily allotment. If a topical is sold to a non-patient, enter NOPT000000 in the field requiring a patient number to indicate this is “not a patient.”
