

<b>Bulletin Number:</b> MT_IB_0047	<b>Distribution Date:</b> 3/25/2024	<b>Effective Date:</b> 10/1/2023
<b>Contact Point:</b> Metrc Support	<b>Subject:</b> Entering a 10% variance for Edibles	
<b>Reason:</b> Informational bulletin in conjunction with the Montana CCD.		

Greetings,

Metrc, in conjunction with the Montana CCD, would like to provide the following information about entering a 10% variance for Edibles Items. The original CCD bulletin can be found at the below link.

- [Cannabis Control Division February Newsletter - Montana Department of Revenue \(mtrevenue.gov\)](https://mtrevenue.gov)

Please read on for more information.

## Applying a 10% variance on Edibles

Through the passage of [HB 229](#), a 10% variance on the personal possession limits allowed for edibles became effective October 1st, 2023. Metrc users will no longer have to create a new item in Metrc for the same item that varies in potency. Per direction from the Montana CCD, edibles that test between 90 and 110mg of THC can be categorized as 100mg. The variance is accounted for in the Item and does not infringe on cardholder allotments or flag the licensee for an oversell.

The following is an example of a Package that correctly factors in the 10% variance. The item shown is a batch of Edibles that test between 90 and 110mg of THC, however, notice that it is packaged using the Item – **100mg Solventless Chocolate Drops**. This Item accounts for the variance and does not infringe on cardholder allotments or flag the licensee for an oversell. If this same batch tested below 90mg or above 110mg, a new Item would need to be created to accurately represent the product – **see Figure 1**.

Item	Category	Type	Quantity Type	UoM	CBD	THC
100mg Solventless Chocolate Drops	Infused (edible)	InfusedEdible	CountBased	Each		100 mg

**Figure 1: Creating Items with the 10% edibles variance**

## Metrc resources

If you have any questions, or need additional support, the following resources are available:

**Contact Metrc Support** by using the new full-service system – Service Cloud – by navigating to [Support.Metrc.com](https://support.metrc.com), or from the Metrc System, click Support and navigate to support.metrc.com and it will redirect to the portal.

*Please note:* If accessing the portal for the first time, a username (which is established when logging in), the respective state and “Facility license number”, and a valid email to set a password are required. For additional information, please review the [step-by-step guide](#) or a [video demo](#).

**Metrc Learn:** Right now, Metrc Learn offers various programs for users featuring different courses. To log in, visit [Metrc Learn](#) and enter your login credentials.

However, we’ve conducted a lot of listening and learning across the industry, and we’re proud to share that Metrc Learn is undergoing a redesign, featuring interactive modules and on-demand advanced training. Stay tuned for more exciting details rolling out soon, as we redefine your experience with Metrc!

**Access additional resources:** In the Metrc system, click on the Support area dropdown on the navigational toolbar and select the appropriate resource, including educational guides, manuals, and more.

Thank you for your continued partnership.
