

Bulletin Number: MS_IB_0027	Distribution Date: 02/12/2025	Effective Date : 02/11/2025
Contact Point: Metrc Support	Subject: New Cultivation Enl	hancements
Reason: To inform and provide an u Cultivators.	pdate regarding system enha	incements for

Greetings,

To further streamline workflow processes and reduce manual entry errors for Cultivators, the following functionality enhancements are now available in the Metrc system.

- Improved Immature Plants functionality
- Auto-fill Strain field for Plantings
- View and restore plants within Harvest Details

Please read on for more information on how these new enhancements will drive improved accuracy and efficiency.

Improved Immature Plants Functionality

Create Plantings:

For multi-strain selections or where strain data is missing when selecting multiple plant batches, the strain field will remain blank, allowing users to manually assign the appropriate strain. Users retain the flexibility to override the auto-populated strain as needed, enhancing control and customization – **see Figure 1**.

Figure 4: Split Plantings action window with auto-populated Strain

Metrc LLC For additional support, please visit <u>Support.Metrc.com</u>

Auto-Fill Strain Field for Plantings

Within the Immature Plants window, the plant selection process has been enhanced to automatically populate the Strain field in the Create Plantings action window – **see Figure 5**.

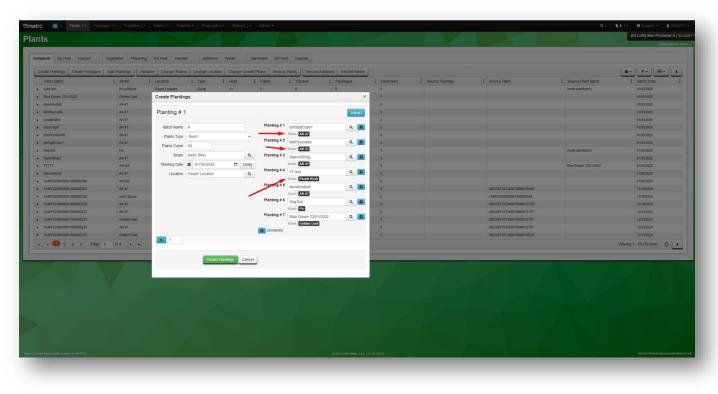

Figure 5: Create Plantings action window

View and Restore Plants in Harvest Details

All plants associated with a Harvest Batch are now viewable through a new "Plants" tab in the Harvested section, which mimics the other plant grids – **see Figure 6**.

Metrc Resources

If you have any questions, or need additional support, the following resources are available:

Contact Metrc Support

By using the new full-service system by navigating to <u>Support.Metrc.com</u>, or from the Metrc System, click Support and navigate to support.metrc.com and it will redirect to the portal.

Please note: If accessing the portal for the first time, a username (which is established when logging in), the respective state and "Facility license number", and a valid email to set a password are required.

Metrc Learn

Metrc Learn has been redesigned to provide users with interactive, educational information on system functionality to expand skillsets and drive workflow efficiencies.

Accessing the new Metrc Learn LMS is simple through multiple convenient locations:

From within the Metrc system

Navigate to the Support area on the navigational toolbar and select "Sign up for Training" to register.

Access additional resources

In the Metrc system, click on the Metrc Expert widget icon and search for the appropriate topic or type in a question.

Thank you for your continued partnership.
