

Bulletin Number: MS_IB_0034	Distribution Date: 08/08/2025	Effective Date: Ongoing
Contact Point: Metrc Support	Subject: Mississippi Unit Calculation Change refresher	
Reason: Refresher on the recent updates to the definition of MMCEU to ensure compliant sales are recorded in Metrc or Third Party Point of Sale systems.		

Greetings,

As a refresher we would like to provide information on the changes included with House Bill 611. Changes to cannabis concentrate and infused products are listed below.

- 210 (ii) One (1) gram of THC in a medical cannabis concentrate; or
- 212 (iii) One * * * (1) gram of THC in an infused product.

Please read on for more information regarding these changes.

For all Concentrate-type items, the conversion from Weight sold to THC sold is automatically made in Metrc based on the Unit THC value associated with a given item. The licenses that produce these products have assigned those Unit THC values in Metrc as a reflection of the quantity of THC in one gram of product.

To ensure that all sales are accurately recorded in Metrc and reflected against patient allotments, it is critical to properly configure these products in your Point of Sale (POS) system if you are not reporting sales directly in Metrc.

Important: Please work with your POS provider to ensure that your system is configured to report sales to Metrc by weight of product sold, not weight of THC sold, as the THC conversion occurs in Metrc at the time of sale.

Examples:

Item Category	Item Name/Product Name	Unit THC Content (represents THC mg/g)	Unit Weight	Quantity to report during sale	THC sold value that will be calculated by Metrc
Concentrate	Metrc's Finest Wax	750mg	0.5 grams	0.5 grams	0.0132oz (equivalent to 375mg, the amount of THC in 0.5 grams of product)
Conc. Infused Pre-Rolls	Metrc Caviar Pre-Rolls	450mg	1.3 grams	1.3 grams	0.0206oz (equivalent to 585mg, the amount of THC in 1.3 grams of product)

Metrc resources

If you have any questions, or need additional support, the following resources are available:

Contact Metrc Support by navigating to [Support.Metrc.com](https://support.metrc.com), or from the Metrc System, click the Support area and select support.metrc.com and you will be redirected to the portal.

Please note: If accessing the portal for the first time, a username (which is established when logging in), the respective state and “Facility license number”, and a valid email to set a password are required.

Metrc Learn: Metrc Learn is designed to offer educational opportunities to enhance users’ skills with the Metrc system and provides various training options based on experience level. In addition, the learning system is organized into facility-specific programs made up of various courses. To login, visit [Metrc Learn](#) and enter your login credentials, or to access, register by visiting the [Metrc Learn Registration](#).

Thank you for your continued partnership.
