

Metrc Support Bulletin

Bulletin Number: NV_IB_0102	Distribution Date: 9/5/2025	Effective Date: 10/6/2025
Contact Point: Metrc® Support	Subject: Product Catalog	
Reason: To announce the launch of the Product Catalog.		

Greetings,

Metrc, in conjunction with the Nevada CCB, is pleased to announce the launch of the **Product Catalog** which will provide the public with a comprehensive database of regulated cannabis products sold through licensed Retail Stores, Medical Stores, Tribal Stores, and Consumption Lounges in the State of Nevada.

The **Nevada CCB Product Catalog** feature will officially go live on **Monday, October 6, 2025**. To ensure transparency and compliance with **NRS 678B.635**, the Cannabis Compliance Board (CCB) has partnered with Metrc to implement a retail-level product catalog database for cannabis and cannabis products. This catalog provides detailed product information, certificate of analysis data, and product status updates, promoting regulatory transparency and supporting the safe consumption of cannabis in Nevada's regulated market.

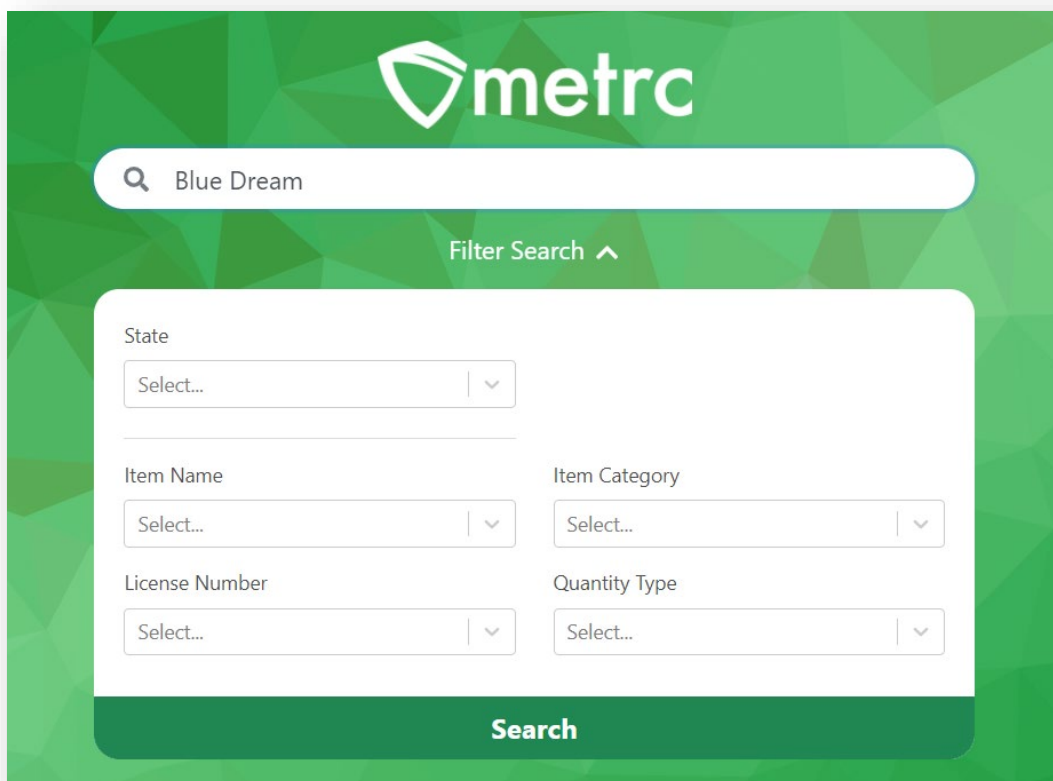

If you have any questions or need assistance in categorizing your products, please reach out to the Cannabis Compliance Board at auditinspections@ccb.nv.gov

Thank you for your attention to this important update. Please see the following pages for further details.

Searching the Product Catalog

The Product Catalog can be accessed directly at <https://catalog.metrc.com/> at the time of the effective date of October 6, 2025.

Visitors accessing the catalog can search by entering product information into the search bar and selecting filter criteria - **see Figure 1**.

The screenshot shows the Metrc Product Catalog search interface. At the top, the Metrc logo is displayed. Below it is a search bar containing the text "Blue Dream". To the right of the search bar is a "Filter Search" link with an upward arrow. Below the search bar is a white box containing four dropdown menus: "State", "Item Name", "Item Category", "License Number", and "Quantity Type". Each dropdown menu has a "Select..." option and a downward arrow. At the bottom of the white box is a green "Search" button.

Products that will be searchable in the Catalog

The following list of categories assigned to product items will be published in the online catalog after being transferred to state-licensed retail stores.

All facilities must review their Items to ensure that items destined for sale to a consumer or patient are properly categorized, particularly when repacking bulk items into a sellable form. The following are examples of products that are destined for sale at the retail level.

Item Category	Type	Quantity Type
Capsule/Tablet	InfusedNonEdible	CountBased
Capsule/Tablet - Medical Grade	InfusedNonEdible	CountBased
Infused Edible	InfusedEdible	CountBased
Infused Edible- Medical Grade	InfusedEdible	CountBased

Metrc resources

If you have any questions or need additional support, the following resources are available:

Metrc Learn: Metrc Learn is designed to offer educational opportunities to enhance users' skills with the Metrc system and provides various training options based on experience level. In addition, the learning system is organized into facility-specific programs made up of various courses. To log in, visit [Metrc Learn](#) and enter your login credentials, or to access, register by visiting the [Metrc Learn Registration](#).

Metrc Expert: Metrc Expert is our in-application widget that offers help, step-by-step instructions, videos, as well as searching capability with AI features. Look for the Metrc Expert Icon located in Metrc in the bottom right corner.

Access additional resources: In the Metrc system, click on the "Support" area dropdown on the navigational toolbar and select the appropriate resource, including educational guides and more.

Thank you for your continued partnership.
