

Bulletin Number: NJ_IB_0059	Distribution Date: 06/17/2026	Effective Date: 07/01/2026
Contact Point: Metrc Support	Subject: Lab Test Batches Support Update	
Reason: Updated protocols for Support cases regarding Lab Test Batches		

Greetings,

Metrc in conjunction with the New Jersey CRC, would like to provide an update regarding the protocol for correcting incorrectly submitted Lab Test Batches and selecting the incorrect Sample Package.

Previously, testing facilities could contact Metrc Support directly to request assistance when updating an incorrect Lab Test Batch or updating the Sample Package. Effective July 01, 2026, all requests submitted to Metrc Support to update a Lab Test Batch or Sample Package must originate from the licensee who submitted the test sample.

To help prevent these errors, we strongly encourage all licensees to complete the [Understanding Common Errors in Testing](#) training available through Metrc Learn.
