Contact Point: Metric Support	Subject: Item Product Chart and Lab Test Batches	
Reason: Metric provides guidance on item categories and lab test batches.		

Greetings,

Metric, in conjunction with the West Virginia Office of Medical Cannabis, are pleased to provide a chart that shows how to correlate item categories with products and the appropriate lab test batches for testing.

The following lab test batches will be updated on 07/01/2026 to include solvents:

- Infused Products
- Non-Solvent Concentrate
- Non-Solvent Infused Flower

Please Note: R&D Testing is done by testing group (Metals, Pesticides, Solvents, etc.) The permittee may select any and all R&D Testing Lab Test Batches that are applicable when creating a test sample.

Please read on for additional information.
