

Bulletin Number: Edit Wholesale Transfer Price	Distribution Date: 10/5/2026	Effective Date: 10/12/2026
Contact Point: Metrc® Support	Subject: Editing Wholesale Transfer Price	
Reason: Provide information on the new functionality that allows originating facilities to correct the Wholesale Transfer Price within 30 days of the transfer's creation date.		

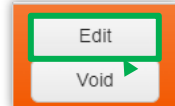

Metrc, in conjunction with the Colorado Marijuana Enforcement Division (MED), is pleased to announce a new enhancement that allows the originating facility to edit the Wholesale Transfer Price on a received Wholesale Transfer. This functionality will be available beginning October 12, 2026.

Previously, if an originating facility entered an incorrect Wholesale Transfer Price, the price could not be corrected after the transfer was received. With this enhancement, the originating facility can edit the Wholesale Transfer Price for up to **30 days** from the transfer's creation date, even after it's been received in Metrc by the destination facility.

If an incorrect Wholesale transfer price is identified more than 30 days after the transfer was created, the price can no longer be edited. The Wholesale transfer price also cannot be edited if sales have already been made from the packages associated with the transfer. In these cases, Licensees should submit a Metrc support ticket providing the updated information to Metrc support documenting the discrepancy and maintain a record of the submission for future reference as needed.

Editing a Wholesale Transfer Price

In the Outgoing tab of the Transfers grid, an Edit button has been added to allow for Wholesale transfer price errors to be corrected as shown in **Figure 1**.
