

Bulletin Number: RI_IB_0058	Distribution Date: 9/30/2026	Effective Date: Ongoing
Contact Point: Metrc Support	Subject: Mother Plants Functionality Update	
Reason: To notify the industry about updates made to the Mother Plants functionality in Metrc.		

Greetings,

To improve mother plant tracking and unlock the full potential of your cannabis genetics, the Metrc system will now allow cultivators to update the growth phase of Mother Plants so that they can be moved throughout the system and be harvested when ready.

To change the growth phase of an exiting Mother Plant, navigate to the Mother Plants tab in the Plants area of Metrc - **see Figure 1**.

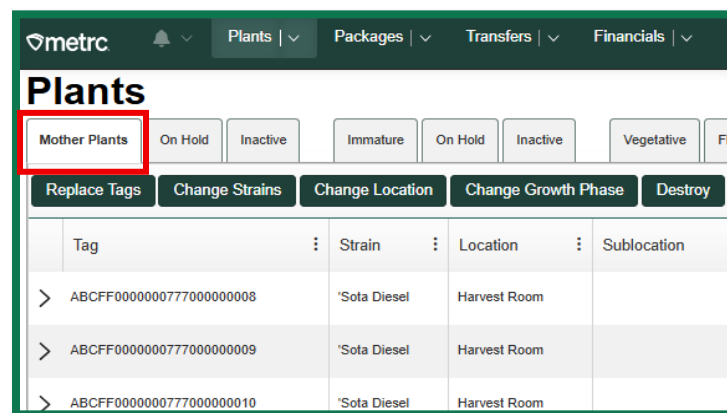

Figure 1: Mother Plants tabs in Plants area

Select the mother plant that needs its growth phase update and click the “Change Growth Phase” button – **see Figure 2**.

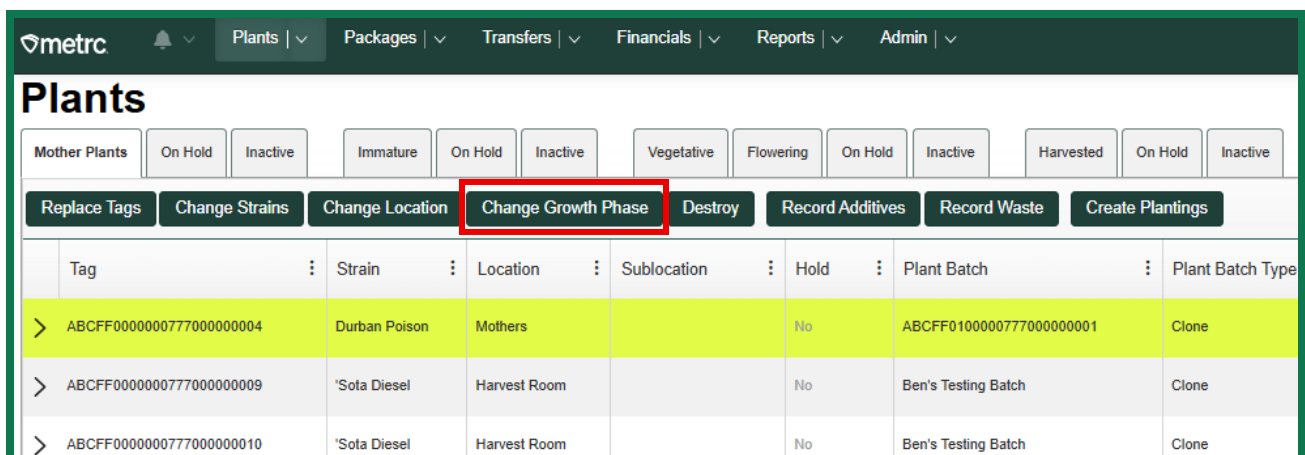

Figure 2: Change Growth Phase button in Mother Plants tab

In the Change Mother Plants Growth Phase button, select the appropriate phase from the New Phase dropdown and select the Change Date. Update the location and sublocation if necessary and select the Change Phase button – **see Figure 3**.

Figure 3: Change Mother Plants Growth Phase action window

Please note: the Replace Tag field will replace the tag number currently associated with the plant in Metrc. Only use this field if the current plant tag is destroyed and must be physically replaced.

Once completed, the plant will be moved to the tab associated with the new plant phase. The history of that plant will display the growth phase updates – **see Figure 4**.

Figure 4: History of plant after moving from Mother phase

It is important to note that Mother Plants must come from existing plants within the vegetative phase. The history of the plant will show the full history of the plant:

- Immature Batch
- Vegetative Growth Phase update
- Mother Plant Growth Phase update
- Any additional growth phase changes once ready to retire and harvest

Metrc resources

If you have any questions, or need additional support, the following resources are available:

Contact Metrc Support

By using the new full-service system by navigating to [Support.Metrc.com](https://support.metrc.com), or from the Metrc System, click Support and navigate to support.metrc.com and it will redirect to the portal.

Please note: If accessing the portal for the first time, a username (which is established when logging in), the respective state and “Facility license number”, and a valid email to set a password are required.

Metrc Learn

Metrc Learn has been redesigned to provide users with interactive, educational information on system functionality to expand skillsets and drive workflow efficiencies.

Accessing the new [Metrc Learn](https://learn.metrc.com) platform is simple:

From within the Metrc system

- Navigate to the drop-down Support menu in the navigational toolbar and select “Sign up for Training” to register.

From the Metrc website

- Navigate to your [state's partner page](#) and scroll down to the “Metrc’s Training Resources” section to find the link.

Also, save the link – *learn.metrc.com* – as a bookmark in your preferred web browser. If you have the existing link saved as a bookmark, please replace it with the new link.

Metrc Expert

In the Metrc system, click on widget icon in the lower right-hand corner to open the Metrc Expert knowledge base to access step-by-step guides, ask questions, and more.

Metrc Support Bulletin

Thank you for your continued partnership.
